SKILLS

Technical/Academic Skills

- Moderate understanding for computer elements developed while creating a server based off the parts taken from three old desktops.
- Reasonable perception of investment and finance acquired through helping alongside a start up business as it begins to get into the market.
- Creative skills acquired through designing and creating layouts for multiple websites.
- Experienced technical knowledge with the following programming languages: C/C++, Java, Python, SQL, HTML, CSS, JavaScript, Visual Basic, knowledge developed whilst programing algorithms and testing them for companies or events, as well as through education from The University of Toronto.
- Intermediate comprehension of the following programs: Wing 101, Eclipse, Sublime and Microsoft Visual Basic, developed whilst creating programming projects and test code using these programs.
- Proficient in using the Microsoft Office Suite (Access, Excel, PowerPoint, Publisher, Word) from former positions that it was required for as well as thorough the use of creating presentations for small and larger events such as the Robbie's Rainbow Gala and Save the Hope.

Interpersonal Skills

- Communication skills: comfortable and experienced while working individually or in a team, established while working with teams and individuals through the creation and management of fundraising events. As well as training new employees in a retail environment, demonstrating the use of SAP and the fundamentals of the company procedures.
- Strong problem solving skills exercised through debugging code as well as dealing with problems during a charity tournament such as whether or not to remove a player based on behaviour.
- Leadership qualities exercised though producing reports and presentations for peers and management.
- Excellent time management and organizational skills achieving sensible project completions, developed through the formation of well established charity events.
- Ability to learn new skills quickly as demonstrated with past employment and volunteer experience as a web developer.

WORK EXPERIENCE

Junior Program Developer

July 2013 – August 2015

TNR Industrial Doors Barrie, Ontario

- Consistently communicating with co-workers to determine their needs towards the algorithms that are created to increased efficiency towards computer tasks converting hours of work into minutes.
- Outline key steps to organize the process of work flow and create the methods to make them more well-organized thus creating more efficient processing times.

- Overseer of technical aspects of the engineering department, implementing multiple algorithms that improve the work for the other engineers leading to quicker and more proficient development times.

Backroom Outfitter

June 2014 – June 2015

Cabela's Canada Barrie, Ontario

- Used good judgement and logic in order to solve multiple problems and make quick decisions based on customer issues.
- Communicate with two employees while training them to use the assets the company provides, as such they later went onto increase the amount of work that was done per day.
- Developed the skills required to organize items according to the layout and instructions given from the employer.

Founder, Organizer and Web Developer

2010 – Present

Jonathan's Crohn's and Colitis Hockey Tournament Barrie, Ontario

- Organize, coordinate, develop and manage the tournament while increasing the amount of participation each year.
- Created, built and designed the website for CCHT while testing the performance and efficiency of the design in the eyes of the customer by sharing the website as a beta version.
- Managed the money and business side of the event while dealing with donations and ways to increase incoming sponsorships and community awareness.

EDUCATION**University of Toronto Scarborough**

2015 – Present

Candidate, Honours Bachelor of Science
Computer Science Co-op, 1st Year**Georgian College**

2016 – Present

Computer Programming Analyst

VOLUNTEER EXPERIENCE

- Organizer and founder of CCHT since 2010 generating over \$45,000 for charity while raising awareness, demonstrating leadership and communicating within the community.
- Leading multiple patients with IBD towards a better understanding of their disease while being an ambassador and advocate for the children's charity Robbie's Rainbow.
- Contributed to the success of multiple events such as P.U.C.K. by displaying strong communication skills towards organizers and events planners leading to the implantation of ideas.

AWARDS/ACHIEVEMENTS

- Ontario Junior Citizen of the Year Award 2013
- Tom Leon Bursary for Community Service (\$5000) 2015
